Behfar Company

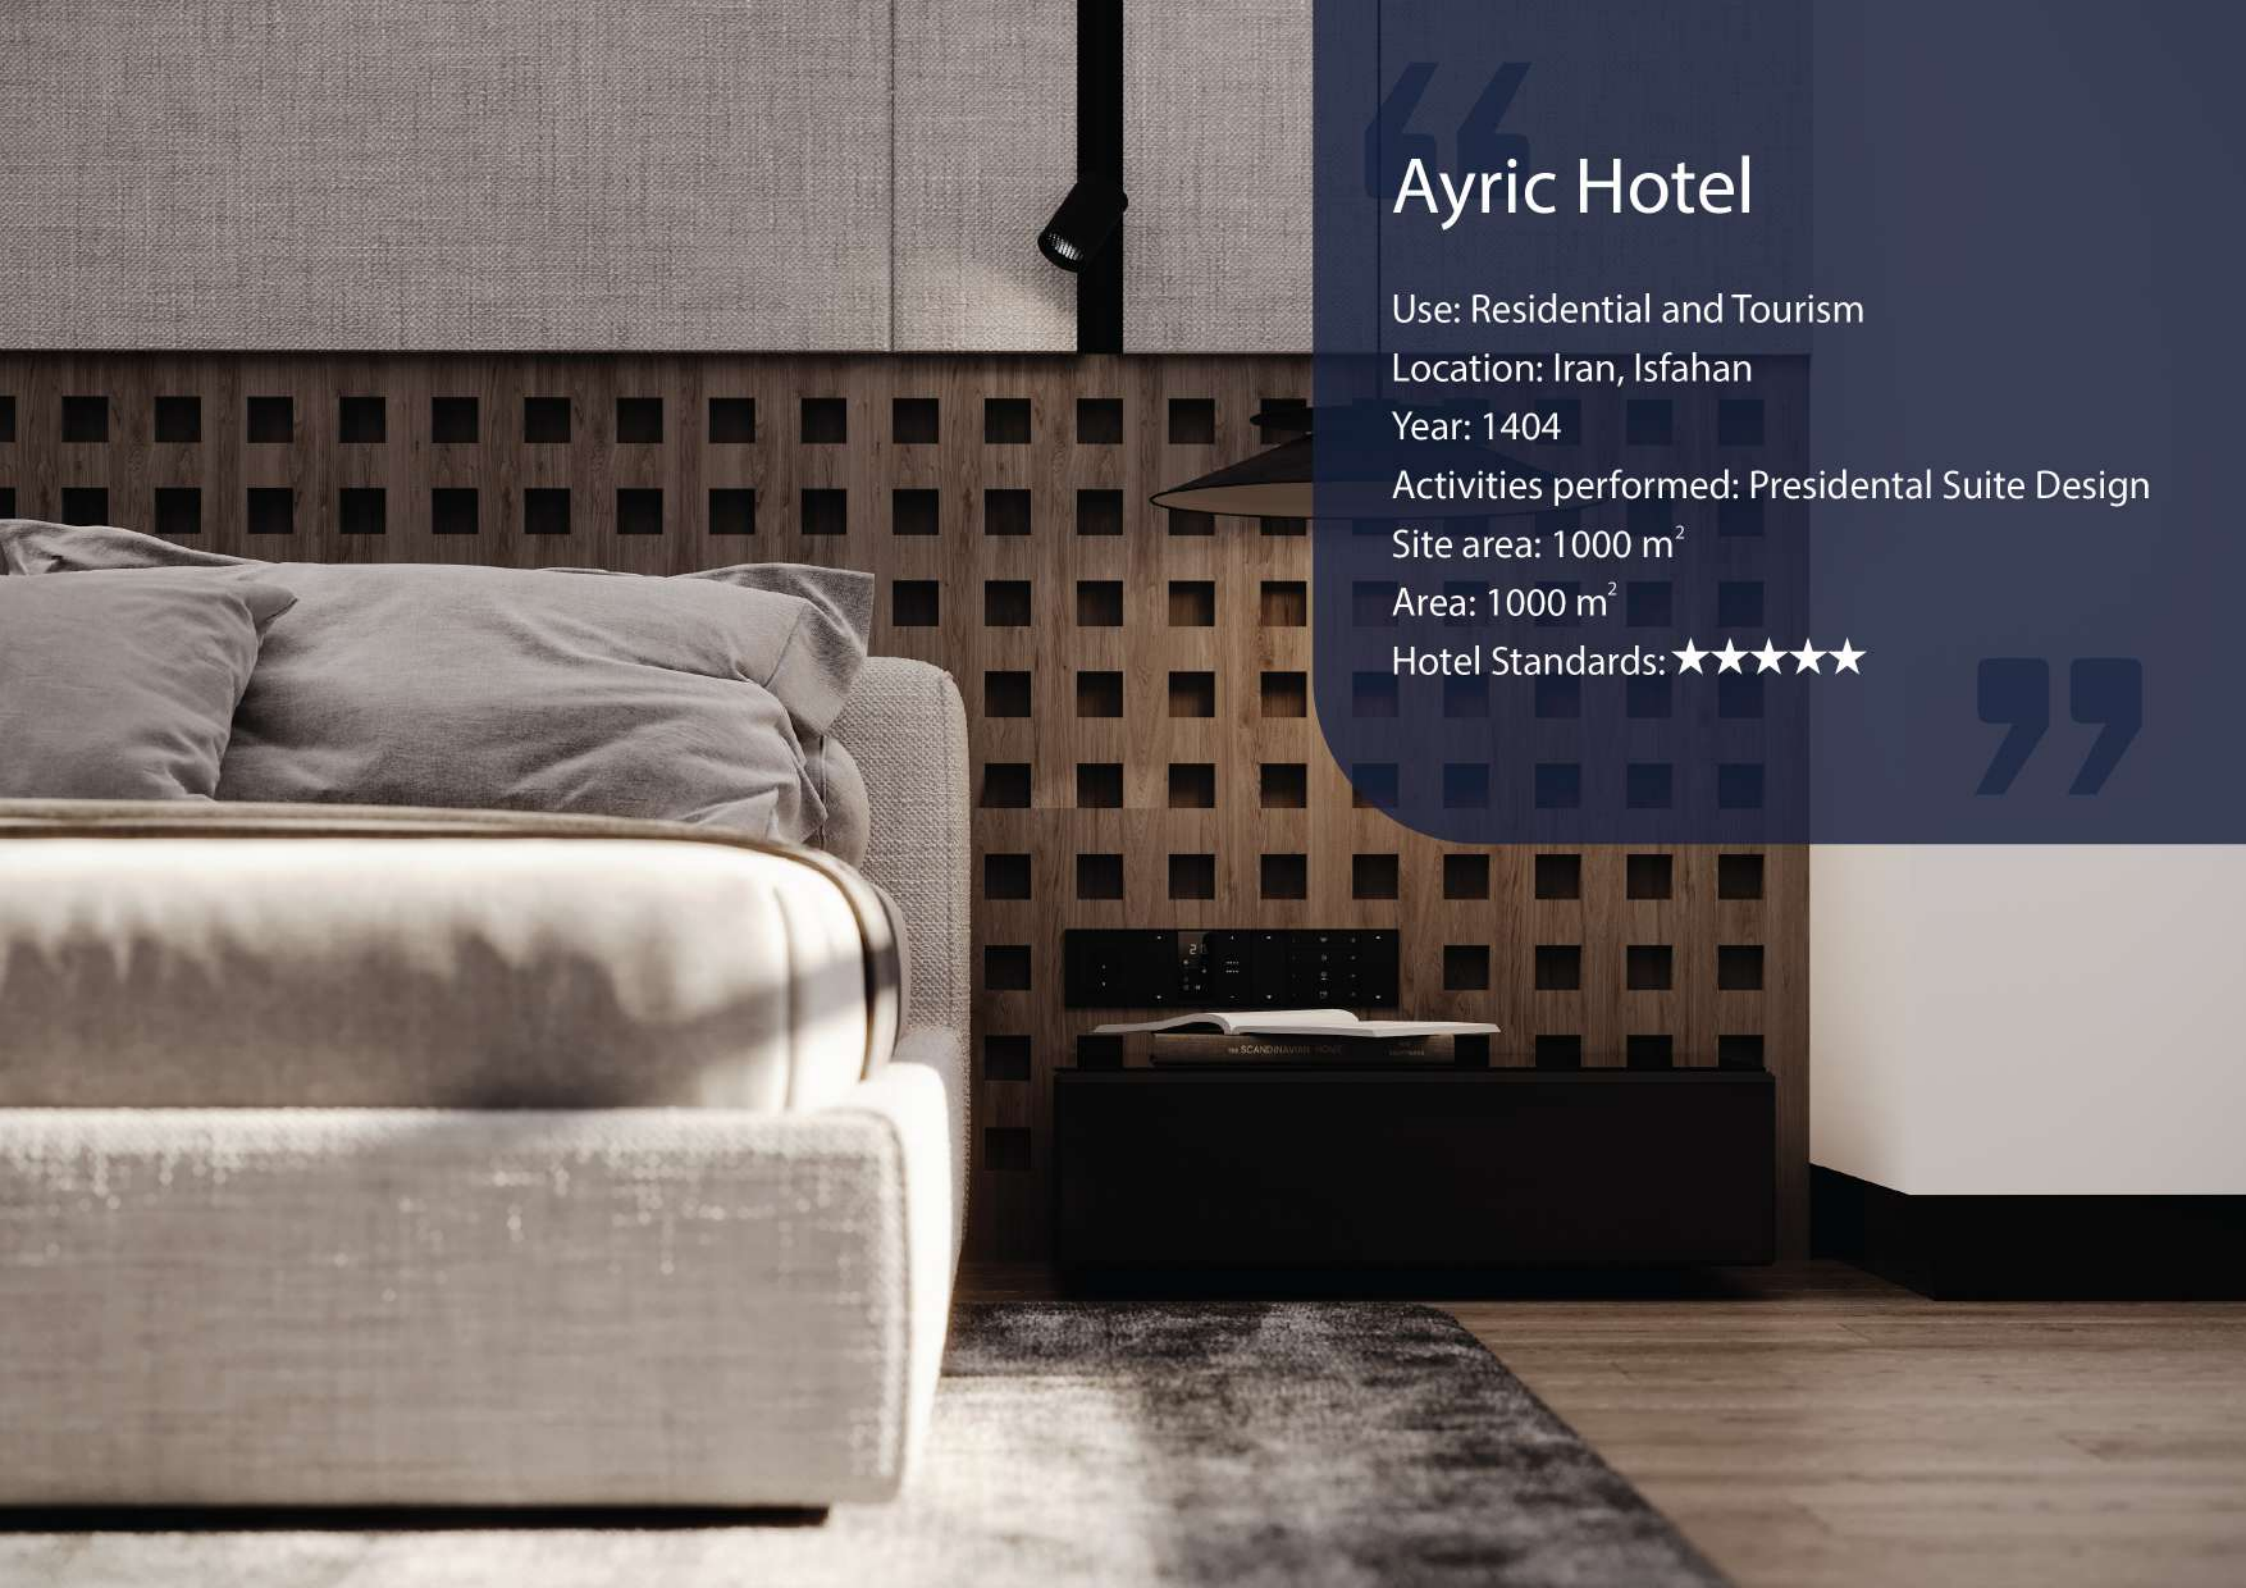

Behfar Company was founded in 2007 by Fariba Yahyavi and Amin Farahbakhsh in line with the aim of creating efficient and high quality space. The company specializes in the design and construction of tourism complexes. After almost two decades of continuous and dynamic activity, Behfar Group is now recognized as one of the leading companies in the hotel construction and equipment. The management structure of this complex has always sought to move dynamically and systematically, relying on the knowledge and experience of its employees to achieve its goals in the field of leisure and tourism complexes.

Our specialty:

- Design and realization of tourism and leisure, residential and office complexes
- Furnishing, interior design, manufacture of furniture and decoration for tourist and office complexes

Room Design

An aerial photograph of the Vanoosh Ecolodge at night. The lodge consists of several interconnected, pod-like structures with curved, light-colored roofs and dark horizontal bands. The interiors are brightly lit, and the lights glow through the windows. The lodge is situated in a dense forest of tall, dark evergreen trees. The overall scene is dark, with the lodge's lights providing the primary illumination.
